PRESS RELEASE

In continuation to the press releases dated January 29, 2009, March 24, 2009 and November 23, 2009 regarding change in the index computation methodology, the guidelines for determining Investible Weight Factors (IWFs) for the index constituents are being revised with immediate effect.

The IWFs for each company in the index will be determined based on the public shareholding of the companies as disclosed in the shareholding pattern submitted to the stock exchanges on quarterly basis by these companies. Further, the following categories would also be excluded from the free float factor where identifiable separately:

- Government holding in the capacity of strategic investor
- Shares held by promoters through ADR/GDRs.
- Strategic stakes by corporate bodies
- Investments under FDI category
- Equity held by associate/group companies (cross-holdings)
- Employee Welfare Trusts
- Shares under lock-in category
