

**IISL
INDIA INDEX SERVICES & PRODUCTS LIMITED**

PRESS RELEASE

Launch of Nifty PR 2X Leverage Index and Nifty PR 1X Inverse Index

In continuation of its efforts to develop indices that meet the requirements of market participants, IISL announces launch of two new indices namely **Nifty PR 2X Leverage Index** and **Nifty PR 1X Inverse Index**.

Nifty PR 2X Leverage Index is designed to generate multiple time return of the underlying index i.e. CNX Nifty price index in situations where the investor borrows funds to generate index exposure beyond his/her cash position.

Nifty PR 1X Inverse Index attempts to provide the inverse return of its underlying index i.e. CNX Nifty price return index. As a broader index provides good exposure to an economy, an inverse index on a broader index will provide the desired exposure when the investor is bearish on the markets.

The online dissemination of these indices will be effective from Monday, October 13, 2014. The index methodology & factsheet are available at the web-link given below:
