

**IISL
INDIA INDEX SERVICES & PRODUCTS LIMITED**

PRESS RELEASE

Launch of Nifty TR 2X Leverage Index and Nifty TR 1X Inverse Index

In continuation of its efforts to develop indices that meet the requirements of market participants, IISL announces launch of two new indices viz. **Nifty TR 2X Leverage Index** and **Nifty TR 1X Inverse Index**.

Nifty TR 2X Leverage Index is designed to generate multiple time return of the underlying index i.e. CNX Nifty total return index in situations where the investor borrows funds to generate index exposure beyond his cash position.

Nifty TR 1X Inverse Index attempts to provide the inverse return of its underlying index i.e CNX Nifty index total return index. As a broader index provides good exposure to an economy, an inverse index on a broader index will provide the desired exposure when the investor is bearish on the markets.

These indices would be calculated on an end-of-day basis. Index methodology & factsheet are available at the web-link given below:
