NSE Indices launches Nifty High Dividend Yield 15 Index

NSE's index services subsidiary, NSE Indices Limited today launched a new strategy index – Nifty High Dividend Yield 15.

The Nifty High Dividend Yield 15 Index aims to track the performance of top 15 companies within the Nifty Total Market selected based on their dividend yield scores. The dividend yield for each stock is determined based on trailing 12-month rolling dividend divided by its Market Cap. Stock weights are based on a combination of the stock's dividend yield score and free-float market capitalization. Each stock in the index is capped at 10%.

The base date for the index is April 01, 2005 and the base value is 1000. The index will be reconstituted and rebalanced on a semi-annual basis in June and December.

The new index is expected to act as a benchmark for asset managers and be a reference index tracked by passive funds in the form of Exchange Traded Funds (ETFs), index funds and structured products.
